

LED Star Light Driver Options

Model: STAR-PWR-2 (drives 1 to 2 star lights)

Model: STAR-PWR-6 (drives 3 to 6 star lights)

S-tech's Star Light Drivers are required for use with our range of star lights. The PWR-6 is a complete dimmable driver and will driver 3 to 6 star lights. If you want to drive 1 to 2 star lights then we have the non-dimming PWR-2 model.

Product Features

- Dimmable with Trailing, LED and Universal Dimmers (STAR-PWR-6 only)
- Easy connect junction box
- Supplied with spare jumpers to fill open ports on junction box
- Long operating life and performance
- 10 Year Residential Warranty

Works together with the S-Tech range of LED Star Lights (model: STAR-0329__)
