

Please read these instructions carefully in full prior to carrying out the installation.

IMPORTANT SAFETY ISSUES

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure that the AC power is disconnected at the switchboard and test to ensure that there is no power on the circuit prior to starting installation.
- This product is rated to IP65 and is suitable for damp environments.
- Modification of this product will void any warranty.
- When cleaning or replacing the light, please ensure the power is off and the light is completely cooled down. Cleaning can be done using a soft cloth and PH neutral detergent.

INSTALLATION INSTRUCTIONS

- Disconnect the power at the switchboard
- Ensure an AC socket or outdoor junction box is installed within 1500mm of the lights position
- Mount the light as required, refer to drawing below
- Plug in the AC cable into the surface mount socket or terminate into the junction box
- Check all connections are correct
- Turn power back on at the switchboard and test the lights operation.
